**SPECIAL REVENUE TAXES
ARE DUE DURING JULY**
From the internal revenue office is issued the warning that certain special taxes for the coming year are due this month and that those required to pay them must take out revenue stamps before the last day of the month. Failure to do so will incur a 25-per cent. penalty. Those required to pay a special tax are manufacturers of oleomargarine, proprietors of theatres, museums or concert halls, circuses, public exhibitions, shooting galleries, riding academies, bowling

alleys and billiard rooms, street fairs, manufacturers of cigars and cigarettes, and all forms of tobacco. A special tax is also imposed upon pleasure boats, yachts and sailing boats of over five tons net and upon all motor boats with fixed engines not used exclusively for trade or fishing. Persons carrying on business of operating or renting passenger automobiles for hire are required to pay taxes as follows: Seating capacity of over two but not over seven, \$10, or \$8.33 1-3 monthly; seating capacity of more than seven,

\$20, or \$16.66 2-3 per month. A separate return should be filed for each automobile.

The internal revenue authorities will soon inaugurate a drive against special and other tax delinquents, and field deputies will check up local dealers on luxury and excise taxes, amusement and dues taxes, works of art and jewelry taxes, salt drink and fountain taxes, documentary stamp and proprietary stamp taxes. Manufacturers' excise taxes, beverage taxes, transportation taxes, insurance, telephone, telegraph and moving picture film taxes will also be looked up. The investigators will apprehend all dealers who have wilfully refused to make such tax returns and arrange for arrest and prosecution of others guilty of violations for failure to make either returns or payments.

AUTO SKIDS AND UPSETS.

THROWING DRIVER OUT
While approaching the crest of Hilltop, near Montville, at noon Friday, a Ford coupe bound from Norwich to New London skidded on the wet roadway, ran into a ditch on the side of the road and turned over on its side. The driver, although thrown out of the car, apparently escaped serious injury, for he was seen to get up from the side of the road and step into a car that had been following him. The car went towards New London.

The Ford bore Massachusetts registration No. 35-125, and was apparently the property of a physician, for it bore the green cross insignia. It was damaged considerably, two wheels and the windshield and the running board and fenders on one side being completely smashed. The car remained lying on its side most of the afternoon.

**MASSAPEG MAD DOG
HAS BITTEN TWO PERSONS**
Two persons in Massapeag in the town of Montville were bitten by a mad dog this week. As the result of the animal's operations, Commissioner of Domestic Animals Whiteley has issued orders for a general quarantine of all dogs in that part of the town. That the dog was rabid has been demonstrated by an examination of the animal's head at the state laboratory, where pronounced evidences of the disease were discovered. The persons who were bitten are receiving Pasteur treatment as a precaution against infection.

The dog was first noticed Monday evening when he appeared at the home of Mrs. A. M. Rhineland. It attempted to enter the house and she tried to prevent it. The dog growled and suddenly attacked her, biting her on the leg. Dr. Fox was summoned immediately and he cauterized the wound. A short time later it was reported that the dog appeared at the home of Joseph Miner, a quarter of a mile from the Rhineland house, and entering an open door, laid down under a table. Remaining a short time, it entered the house and next appeared a mile beyond, at the home of Lincoln Rogers. Rogers believed that he knew the dog and started to caress him when the animal snapped at him, biting him on the hand.

The animal next appeared at the home of Lyman Smith, and Mr. Smith and his son, believing that something serious was the matter with the dog, secured a plowhook, a chain and a metal hook and managed to get the hook into the dog's collar and held him while the chain was passed around his neck and they tied him to a post in the yard. Several hours afterward they found the dog dead.

Dr. Fox communicated with the commissioner of domestic animals at Hartford and was asked to send the dog's head to the state laboratory for examination. A report received Thursday was to the effect that this was a pronounced case of rabies.

The Pasteur treatment was prescribed for the victim and the quarantine established for the dogs. It is feared that the dog may have bitten several animals.

FATHERS OF HUSBANDRY.
Norwich grange No. 172, with worthy Master John E. Fanning presiding, held a well attended meeting Wednesday evening in Steiner's hall, at which an instructive talk by Allen Laam upon "Fathers of Husbands" was given.

Mr. Laam spoke of the habits of bees and of the flowers from which they get their honey, showing that not all blossoms are sources of honey, but that the bees had certain kinds of flowers from which they derived their main supply. Apple blossoms, clover, sumac and huckleberry blossoms were mentioned as the principal flowers from which the bees collected their honey, and apple blossom honey is probably the finest. Mr. Laam spoke for about an hour, giving a talk which was highly instructive and profitable to the members.

Three new members were voted on and it was voted to have the grange picnic on the first Wednesday in August. The place proposed is sufficiently large so that members can readily reach it. It will be a basket picnic, but further details are to be reported by the committee at the next meeting of the grange.

It was voted to send the lecturer, John M. Swahn, to the lecturers' convention in Portland, Me., in August.

MOOSEHART LEGION

At a well attended meeting of the Norwich chapter, No. 154 Women of Mooseheart Legion held Thursday evening at Moose Home, Senior Regent Elida Boyens, presiding, regular business was transacted. It was voted to hold a picnic at Mrs. Hattie Woodman's cottage at Richard's Grove on Wednesday, July 20th. The next meeting of the lodge will be Aug. 11th.

SCOTTISH CLANS.

the Providence street grounds, Taftville, this afternoon, when the New Departure team of Bristol appears. Being one of the strongest industrial teams in New England, with several ex-league players, the Bristol boys have been toiling their opponents over in fine style, and should give the Taftville team a hot battle. Headed by Eddie Goodridge, a former Eastern leaguer, who is their star twirler and Waters, for many seasons with New Haven as a catcher. The team has such good men as Scott, Gock and Holcomb in the outfield, Zelnick, 1st base; Forslund, second base; Halbach, third base, and Green, and Welch as relief hurler to help out Eddie Goodridge.

Manager Benoit will send Mike Moran after the New Departure team and will have Froehotte, formerly of the Ashlands of Jewett City for a battery mate, and the usual strong lineup to help them along.

CAN SOLVE JAP**PROBLEMS WITHOUT WAR**

Tokio, July 15.—Ex-Speaker Saburo Shimada of the house of representatives who, because of his oratorical powers, is often called by Japanese the Wendell Phillips of Japan, is contributing a series of articles to the Nichinichi Shimbun relations with the United States in which he deplores and denounces talk of war. The distinguished parliamentarian holds that if the situation between the two countries is studied from a broad statesmanlike attitude such talk will become meaningless.

He says: "Possibly there are no Japanese who seriously think that Japan is able to attack America across the Pacific as there will be no Americans who dream of an American invasion of Japan. Some think that the immigration question will probably furnish a cause held between Japan and the United States while others are of the opinion that the scramble for rights and interests will lead the two countries to war. These questions are not of such a nature as to be solved by an appeal to arms. American misunderstandings about Japan may be dispelled by the efforts of diplomats who can explain the general tendencies of the world, and Japan's position, plainly and fearlessly. Immigration is no more a question with Ameri-

REFUSES TO EJECT**NAVY STEWARD'S WIDOW**

New York, July 15.—The brotherhood of the navy proved stronger than the law today when a deputy city marshal refused to eject from her home in Brooklyn the widow of John Jacob Nowak, a steward who lost his life when the transport Lincoln was torpedoed in 1914.

When the deputy, John Hagen, appeared with his assistants, Mrs. Nowak, her three children clinging to her skirts, cried out that if her sailor husband had not been killed in the war, she would not be forced from her home.

Hagen asked his name and learned, "Why, he was my buddy and as square a job as ever lived," he asserted.

"Here's where I quit," he asserted.

His assistants followed suit.

Newark.—Harold Mather, white huck-

leberry in West Newark, was bitten on the left arm by a poisonous snake.

The medical attention of Dr. William J. Tracey was required to treat the wound.

Mather shortly after the sting began to suck the wound, drawing the poison out, and was informed by Dr. Tracey that had he not done this he would have died from the bite, as it was that of a highly poisonous snake.
